SUREN NETWORK CERTIFIED NETWORK ASSOCIATE

**PHYSICAL CONNECTION
TEST**

1, Types of mediums ?

There are 2 types of network mediums.

1. Wired media

- Electrical signal (Copper cable)

- ~~Lighting~~ lighting signal (Fiber optic cable)

2. Wireless Media

- Radio Frequency

2, Write down switch 8-pins ?

1 White / Orange

2 Orange

3 White / Green

4 Blue

5 White / Blue

6 Green

7 White / Brown

8 Brown

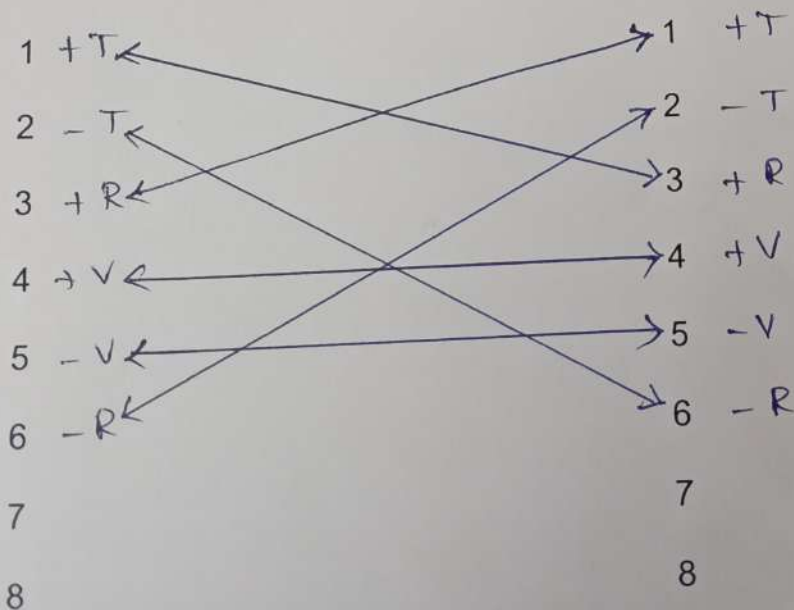

3, Connect utp cable between two devices

Router

Cross cable

PC

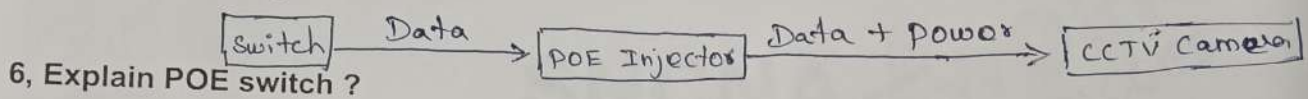

4, Explain AUTO MDIX ?

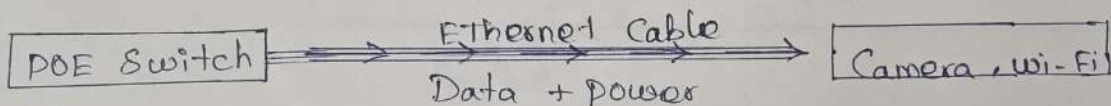

Auto-MDIX is automatically detects the required cable type 1. Straight-through or 2. Cross over and configures the internal connection so data transmits correctly.

5, Explain POE injector ?

POE Injector adds electrical power to a standard ethernet cable so that a single wire can deliver both data and electricity to an edge device.

POE switch is a standard network switch that sends both data and electrical power over a single ethernet cable.

7, Explain types of nic & function ?

NIC - Network Interface card is the hardware that allows a computer or other device to connect to a network and send/receive data.

1. Wired NIC - Connects the device to network using an ethernet ~~cable~~ cable with an RJ45 connector
2. Wireless NIC - Connects a computer to a network wirelessly, without an ethernet cable.
3. Fiber NIC - uses a fiber-optic connection instead a copper ethernet.
